

**Missouri Conservation Stewardship Program (CSP)  
Local Priority Resource Concern Categories (PRCC)  
Agricultural Land (AgLand)**

The resource concerns listed under each geographic region are listed in no particular order.

**Loess Hills Priority Resource Concerns**

1. Degraded Plant Condition
2. Terrestrial Habitat
3. Soil Quality Limitations
4. Wind and Water Erosion
5. Concentrated Erosion
6. Livestock Production Limitation
7. Field Sediment, Nutrient and Pathogen Loss
8. Pest Pressure

**River Hills and Plains Priority Resource Concerns**

1. Concentrated Erosion
2. Soil Quality Limitations
3. Livestock Production Limitation
4. Degraded Plant Condition
5. Wind and Water Erosion
6. Terrestrial Habitat
7. Pest Pressure
8. Field Pesticide Loss

**Glacial Till Priority Resource Concerns**

1. Concentrated Erosion
2. Soil Quality Limitations
3. Degraded Plant Condition
4. Terrestrial Habitat
5. Wind and Water Erosion
6. Livestock Production Limitation
7. Pest Pressure
8. Field Sediment, Nutrient and Pathogen Loss

**Ozark Highlands Priority Resource Concerns**

1. Degraded Plant Condition
2. Soil Quality Limitations
3. Terrestrial Habitat
4. Livestock Production Limitation
5. Wind and Water Erosion
6. Concentrated Erosion
7. Field Sediment, Nutrient, and Pathogen Loss
8. Pest Pressure

**Tallgrass Prairie Priority Resource Concerns**

1. Degraded Plant Condition
2. Terrestrial Habitat
3. Soil Quality Limitations
4. Wind and Water Erosion
5. Concentrated Erosion
6. Livestock Production Limitation
7. Field Sediment, Nutrient, and Pathogen Loss
8. Pest Pressure

**Mississippi Delta Priority Resource Concerns**

1. Terrestrial Habitat
2. Wind and Water Erosion
3. Soil Quality Limitations
4. Source Water Depletion
5. Field Sediment, Nutrient, and Pathogen Loss
6. Degraded Plant Condition
7. Livestock Production Limitation
8. Pest Pressure

**Springfield Plains Priority Resource Concerns**

1. Degraded Plant Condition
2. Soil Quality Limitations
3. Livestock Production Limitation
4. Wind and Water Erosion
5. Terrestrial Habitat
6. Concentrated Erosion
7. Pest Pressure
8. Field Sediment, Nutrient, and Pathogen Loss

**Upper Mississippi Priority Resource Concerns**

1. Degraded Plant Condition
2. Soil Quality Limitations
3. Livestock Production Limitation
4. Wind and Water Erosion
5. Concentrated Erosion
6. Terrestrial Habitat
7. Field Sediment, Nutrient, and Pathogen Loss
8. Pest Pressure
