RCPP Program Agreement Number: \_\_\_\_\_

**REGIONAL CONSERVATION PARTNERSHIP PROGRAM (RCPP)  
 CONSERVATION VALUES**

Instructions: Each RCPP conservation easement deed must clearly state the specific conservation values for which the RCPP entity-held easement is being acquired to benefit and must include deed terms that further the stated conservation values. Provide below the specific and complete statement of Conservation Values (Conservation Values Statement) that may be included in the terms of an individual RCPP entity-held easement acquired pursuant to the above-referenced RCPP Program Agreement. Complete a separate table for each Conservation Values Statement that may be used. For each Conservation Values Statement, list the associated conservation benefits and resource concerns that would be addressed by an RCPP easement acquired to protect the stated conservation values. The conservation benefits and resource concerns must be from among those identified in the RCPP Programmatic Partnership Agreement (PPA) that this RCPP Program Agreement is a supplement to. The final language of the Conservation Values Statement to be included in an individual RCPP conservation easement deed must be based on one of the Conservation Value Statements identified in this exhibit and will be agreed to by all required parties through the execution of the individual RCPP parcel cost-share contract.

<b>A. Conservation Values Statement</b> <i>(Provide the statement to be included in the RCPP Conservation Easement Deed)</i>	<b>B. Associated Conservation Benefits and Resource Concerns Being Addressed</b> <i>(List the conservation benefits and resource concerns that would be addressed by an RCPP easement containing the Conservation Values Statement identified in Column A. Add additional lines as needed).</i>
